CAHIP NorCal Turkey Drive Raises $2,120 to Help Feed 150 Local Families

SACRAMENTO, Calif. – November 23, 2026 – The California Association of Health Insurance Professionals Northern California Chapter (CAHIP NorCal) is proud to announce the success of its annual Turkey Drive, which raised $2,120 to benefit River Oak Center for Children and help provide Thanksgiving meals to local families in need.

According to Michael Peralta, Senior Executive Assistant to River Oak Center for Children CEO Laurie Clothier, the funds raised through this year's Turkey Drive helped feed 150 families during the Thanksgiving season.

The annual Turkey Drive is part of CAHIP NorCal's ongoing commitment to giving back to the communities its members serve. Through the generosity of local health insurance professionals, industry partners, and supporters, the chapter continues to make a meaningful difference beyond the health insurance industry.

"Our members spend their professional lives helping individuals and families access the care and coverage they need, but our commitment to our community doesn't stop there," said Lauren Bayha, President of CAHIP NorCal. "Knowing that our collective efforts helped put Thanksgiving meals on the tables of 150 families is incredibly rewarding. We're grateful to everyone who contributed and helped make this year's Turkey Drive a success."

River Oak Center for Children is a Sacramento-based nonprofit organization dedicated to supporting children and families through behavioral health services and other programs that promote family well-being.

CAHIP NorCal extends its sincere appreciation to everyone who donated, helped spread the word, and supported this year's Turkey Drive. Their generosity reflects the chapter's belief that strong communities are built through collaboration, compassion, and a shared commitment to helping others.
